

Embedded Identification Number Key Chart

Rosco has the unique capability to embed an identifying number into the OPTI-SCULPT material, underneath the design structures. The embedded identification number can be viewed with a jeweler's loupe or magnifying glass. The numbers in the left column reflect the embedded identification number of the corresponding pattern in the right column. The identification numbers are available every 3-4 inches on the sheet, giving users the ability to identify the OPTI-SCULPT pattern after cutting a sheet to a smaller size.

Embedded Number	OPTI-SCULPT™ Pattern
01	10°
03	20°
04	30°
05	40°/60° Reversible
07	20° X 40°
09	15° X 35°
10	10° X 20°
11	10° X 30°
12	10° X 40°
13	15° X 45°
14	10° X 60°
